I may not be the strongest coder, but I am the strongest problem solver.

SKILLS

- Programming language
 - **Frontend:** React (Javascript, Typescript), React Native, Flutter, Wechat Official Programming Language
 - **UI:** React Bootstrap
 - **Backend:** FastAPI (Python)
 - **Database:** MySQL and PostgreSQL
 - **Dashboard:** Grafana
 - **Cloud:** Podman(Docker), Openshift, JFrog Artifactory
 - **Tools:** Android Studio, Visual Studio Code, Xcode
- Interested: Neural Network Library (Scikit-Learn, TensorFlow, Neurolab, and Pytorch)

WORK HISTORY

Part-time Placement Programmer - Hospital Authority (2023 Aug - 2024 Aug)

- Develop **2** web systems to let our colleagues manage their PaaS User App data
 - Frontend: **React.js**; Backend: **FastAPI, Node.js (Code Optimization)**; Database: **MySQL, Postgres DB**
 - **Cloud:** Docker/Podman, Openshift, K8s
 - Apply **Agile** Approach (**Daily Standup for Function Update**)
- Develop **2** automation programs using **Excel VBA**
 - Replace the process of extracting Excel data and generating weekly reports (-80% working time)
- Involve **AI tools(GitHub Copilot, cursor), and AI Chatbot (Gemini, Grok, ChatGPT) in developing**

Project Executive - Chessman Online (2025 Sep - 2026 May)

- Made a **Food & Drink / Restaurant Guide App** (齊人2gt)
 - **Project Leader (Full Stack)**
 - **Platform: Google Play, IOS and WeChat miniprogram (For customers)**
 - **Google Play:** https://play.google.com/store/apps/details?id=com.chessman_it_app&hl=zh_HK
 - **IOS:** <https://apps.apple.com/hk/app/%E9%BD%8A%E4%BA%BA/id6759543435>
 - Frontend: **Flutter, WeChat Official Programming Language (HTML, CSS, JS)**; Backend: **Node.js**; Database: **MySQL, Postgres DB**, Cloud: **Docker, Aliyun, Cloudflare**
 - Using **AJAX** method (**LazyLoading, dragDown Refresh**)
 - Apply **Agile** Approach (**Daily Standup for Function Update**)
- Manage an IT team with **3 members (including the interviewing process in Mainland China)**
 - Design the timeline of the Project (齊人2gt)
 - Assign the job duty to members through **Monday / Excel table** to meet the timeline
- Familiar with the **policy of the application published both in Hong Kong and China**
 - Facilitating Cross-boundary Data Flow within the Greater Bay Area
 - ICP, DNS cert
- Involve **AI tools(GitHub Copilot, cursor), and AI Chatbot (Gemini, Grok, ChatGPT)** in developing

EDUCATION

City University of Hong Kong (2021 - 2025)

Bachelor of Science in Computer Science (Cybersecurity Stream)

EXPERIENCE

Solve for Tomorrow 2024 competition - Samsung (2024 Oct - 2025 Jan)

- Made an accident notification system with the API called to create the best path without passing the accident location
- Frontend: **React Native**; Backend: **FastAPI**; Database: **MySQL**

Final Year Project - Sleeping Analysis App (2024 - 2025)

- Make an application with the **trained chatbot** for communication with the users (No chatbot api used)
- **Correlation** with their sleep pattern and other attributes (temperature, sports, etc)
- Prediction of **Sleep Apnea** and **Chronic Disease** from Sleep Data
- Frontend: **React Native**; Backend: **FastAPI**; Database: **MySQL**; Publish: **Expo Router**
